## ABOUT ME

My expertise in using HTML, CSS, JavaScript, and React Js to create user-centered websites. good good understanding with responsive, user-experience, and web design best practices. strong creative and analytical skills. Dedicated team member keen focus on the details.

## EDUCATION

**Western Mindanao State University**

Bachelor of science in information technology

2021-2023

## CERTIFICATION

**Fullstack Web Development**

KodeGo

**June - Sept 2022**

Learned full stack web development concepts using HTML, CSS, JavaScript, ReactJs, NodeJs, and MySQL.

## EXPERIENCES & PROJECT

### Capstone Project in School          2022-2023
Generic Hotel Reservation System

- The general objective is to provide a web-based application that addresses the following issues: System limits to specific accommodation owners. Inconvenient guests' inquiries and time-consuming manual or in person reservation bookings. An online platform that can provide a better experience for guests and can benefit both large and small accommodation business owners.

### Kodego Project                         2022
dotDesign

- Working as a team
- use email js to send emails merely through client-side technologies
- Integrated Git and GitHub technologies in the site

Outplace

- Working as a team
- using the Mern stack to build the project and the Cloudinary API to upload images.
